

Jack Zoda
Construction Foreman
Walgreens Construction

T&W Corporation
3841 West Morris Street
Indianapolis, IN 46241

December 24, 2003

To Whom It May Concern:

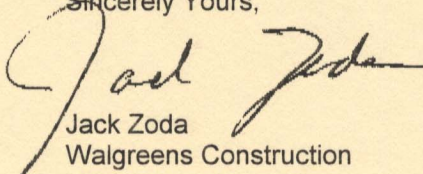

As construction foreman for Walgreen's Construction Department, my position entails making weekly site visits to multiple Walgreen's pharmacy projects under construction. My responsibilities include ensuring that Walgreen's construction criteria are being strictly adhered to, throughout the construction process.

I have worked with T&W Corporation on several Walgreen's construction projects in recent years and have been impressed with T&W's project quality, which I find routinely meets or exceeds Walgreen's criteria. Furthermore, I have always found T&W Corporation personnel, at all levels, to be accommodating, knowledgeable, and professional, with a continuous focus on customer service.

Based on my experience, I personally recommend T&W Corporation without hesitation, to anyone looking for a dependable and qualified contractor to work through construction of their facility in a timely, courteous and professional manner.

I look forward to working with T&W Corporation on future Walgreen's Projects.

Sincerely Yours,

Jack Zoda
